Jim Korpik
Doug Neyman

Introduction:

The Alexandria Fire District is a special fire-taxing district (KRS Chapter 75) that encompasses a twenty-five square mile area, including the City of Alexandria and bordering southern Campbell County area. A seven-member board as prescribed by KRS Chapter 75 governs the Fire District. The population served by the Fire District is approximately 15,000 to 20,000 citizens. Services provided by the Fire District include Fire/ Rescue services and Emergency Medical services. The City of Alexandria is primed for growth with the recent opening of the Eastern Regional Wastewater Treatment Plant. Already approved by the Planning and Zoning Commission or in the process of construction are seven subdivisions with approximately 2,000 homes and condominiums. Due to the state of the economy, the construction of these homes has been delayed. Commercial properties completed include the Super Wal-Mart, Arby's, Sonic and Walgreen's. In the planning stages are United Dairy Farmers and a Speedway Gas Station. As these projects start to become reality, the Alexandria Fire District has the task of keeping up with the emergency services needs with equipment and personnel. The Fire District continues their part with the Northern Kentucky Technical Rescue Team, which coincides with the ordering of a new Heavy Rescue Truck that will be delivered In February of 2009. The following is an end of year summary for calendar year 2008, reporting fire and EMS responses, training, personal responses, accomplishments by the Fire District, and a look into the future. 2009 will be a very busy year for the Fire District to include Advanced Life Support, hiring paramedics, purchasing a paramedic chase car, the arrival of the New Heavy Rescue Truck, and a proposed new Life Squad.

Population Served:	Approximate 10,000 City of Alexandria Approximate 5,000 to 7,000 County Area
Square Miles:	25 Square Miles (Both city and county)
Fire Dept Created:	1937
Fire District Created:	1976 (Campbell County Fire District #5)

Fire Hydrants	551

New Rescue Truck Committee:

The new Rescue Truck Committee continued their hard work on the new rescue truck with overseeing the manufacturing process and ordering new equipment. This committee met throughout the year and has spent numerous hours with meetings and demonstrations. This total does not reflect time spent on administrative, research work, and additional duties assigned to each individual. The committee was chaired by Assistant Chief Mark Rauch, assisted by Deputy Chief Charlie Rauch, and committee members Major Bud Lederer, Chief Engineer Dan Hildebrand, Captain Paul Ampfer, Lts Matt Reed and John Seitz and Frank Santee. The New Rescue Truck will be delivered in February of 2009. Special thanks for all the hard work of the committee.

Technical Rescue Team:

In 2008, the Alexandria Fire District continued their part in the Northern Kentucky Technical Rescue Team. The team started with the Erlanger, Point Pleasant, and Florence Fire Departments in 1995 and was joined by the Sanitation District #1 in 2000, Hebron Fire Department in 2004 and recently the Covington Fire Department. The Alexandria Fire District became the first department in Campbell County to commit resources to the team (personnel and rescue truck) and has committed to the Confined Space, Trench Rescue, Large Animal Rescue, and Heavy Rescue/Extrication division while assisting with the other divisions. The team has recently reorganized and areas of emergency response for the team are confined space, emergency shoring, heavy rescue/extrication, rigging, search, and swift water/ice rescue. Chief Koenig of Erlanger FD is the Chairman of the TRT, and board members (steering committee members) are Chief Giordano of Point Pleasant FPD, Chief Martin of Hebron FPD, Rod Bell of the Sanitation District #1, Assistant Chief Groneck of the Covington FD, Chief Pohlman of the Alexandria FD, Chief Morgan of Union FPD, Kirk Reinhart of Kenton County OEM and Ron Schneider of Campbell County OEM. In 2008, the Alexandria Fire District personnel took part in numerous training classes to increase their knowledge base in these technical rescue areas to include confined space rescue (operation and technician level) and large animal rescue. The AFD TRT members also took part in a joint training exercise in the summer with all TRT team members to test every discipline of the organization. The AFD TRT members assisted with three call-outs, an injured worker in a water tower in Southern Campbell, two lost children in Alexandria and a horse rescue in the Silver Grove area of Fire District #1.

Explorer Post 100:

In February of 2007, the Alexandria Fire District Explorer Post was established. The program follows the "Learning for Life" through the Boy Scouts of America. The purpose of this program is to get young kids involved in the fire service and when they attain the age of 18, they can become regular volunteer members of the Fire District. The Explorers train on Wednesday evenings and are permitted to train with the regular members on Monday evening. They do have limitations to what they are permitted to do training wise and are well supervised by the Fire District Advisor. The Advisor from the Fire District is Lt. Seitz. In 2008 the Explorers participated in multiple fire firefighter competitions at Scarlett Oaks, Kentucky FF Association Regional and State Olympics. At the Scarlett Oaks competition, Team 1 finished first in the barrel fill. At the Regional Olympics, Team 1 finished 3rd overall. Their greatest accomplishment was the State competition where Team 1 finished 1st overall and are now the State Champions. They also received letters from the Mayor of Alexandria and Congressman Geoff Davis for their achievements. Explorer members are Captain Danny Hildebrand, Captain Kris Seitz, Lt. Travis Rauch, Lt. Colton Sharp, Lt. Brittany Wagner, Justin Britton, Jonathan Burt, Eric Fleckinger, Matt Glenn, Elijah Meyer, Chris Pratt, Courtney Turrene and Josh Cummins. The

Explorers continue to have a monthly "Youth Dance" held at the Community Center and Fire Station. They continue their fund raising event with the address signs and donated \$250.00 to the Fire Department for the annual "Santa on the Fire Truck"/Needy Family endeavor. The Explorer program has been a great success and remains a very active part of the Fire District.

Campbell County Firefighter Educational Association:

In January of 2008, Chief Pohlman was sworn in as Advisor-Past President of the Association. Chief Pohlman received a life time membership to the organization.

Northern Kentucky Firefighters Association:

In January of 2008, Major Lederer was sworn in as Treasurer of the Association. This is a position that he has held for many years. The Fire District received a "perfect attendance" award for attending all meetings.

Kentucky Firefighters Association:

In July of 2008, the KFA conference was held in Northern Kentucky and was hosted by the Campbell County Fire District #1. Attending from the Fire District was Chief Pohlman, Deputy Chief Rauch, Board Member Betty Rauch, Major Lederer, and numerous other district members participated in the activities. Major Lederer is also the Northern Kentucky Regional Director for the KFA and Chief Pohlman is on the KRS Chapter 75 Committee. The AFD volunteer organization hosted a hospitality room pool side during the off hours of the conference.

Kentucky Fire Chiefs Association:

In 2008, Chief Pohlman attended meetings throughout the state for this organization. Chief Pohlman is on the Legislative Committee for this Association.

Kentucky Fire Commission:

Board Member Betty Rauch serves on the Kentucky Fire Commission and is the only Northern Kentucky Representative on the Commission. She serves as the representative for the Trustees of Fire Protection Districts and is very active in this organization.

Northern Kentucky Fire Officer School:

In January of 2008, the third Fire Officer's class started at the Erlanger Fire Station. This class is taken from the IFSAC Fire Officer manual and prepares officers or junior officers in the everyday functions of being an officer. Chief Pohlman is on the school committee and teaches the budgeting class. Keith Hammann, Larry Record, Jason Weghorn, Lt. John Seitz and Michael Pohlman attended this class and graduated in May of 2008. This makes 9 members from the Fire District that has completed the course.

EMT Class:

The Alexandria Fire District and Fire District #1 sponsored a joint EMT class held at both stations. This gives both Fire Districts opportunities to obtain new EMS members. Currently, AFD members Kris Seitz and Brittany Wagner are enrolled in this class.

Advanced Life Support:

In November 2008, the Alexandria Board of Trustees gave approval for the Fire District to initiate Advanced Life Support operations starting July 1, 2009. The Fire District will contract ALS services to Campbell County Fire District #1, Melbourne Fire District, Southgate and Wilder Fire Departments. One paramedic chase car will operate out of the Alexandria Fire Station and one paramedic chase car will operate out of the Wilder Fire Station. Six paramedics will be employed to complete this endeavor.

CPR Classes:

In 2008, members from the Alexandria Fire District instructed numerous CPR classes certifying many citizens here at the fire station. Captain Ford, assisted by Jim Ciccarella, Keith Hammann, Chris Wuertz, Matt Julian, Mike Sheanshang, and Larry Record instructed these classes and has been very instrumental to the community.

Public Fire Education:

During the entire year and especially around the fire prevention month of October, members from our Fire District visit the local schools and various daycares to talk about different fire safety programs. Many children are instructed on fire prevention and safety measures for the home. The fire safety house was taken to Campbell County Middle School for Redi-Fest. The Fire District also has many children from local schools and daycares visit the fire station to talk fire safety and take a tour to look at the Fire/EMS apparatus and equipment. Sandy Decker heads this program and is assisted by many of the members, including the Explorers. The Fire District members also visited Campbell Ridge Elementary for a Health Fair and safety demonstrations, the Behringer-Crawford Museum in Covington for a Fire Prevention and Safety display and St. Mary's for a Cub Scout "egg drop".

Special Details:

Parades – During the year, Fire District members participate in the Memorial Day Parade, Alexandria Fair Parade and Campbell County High School Homecoming Parade.

Demo Derby – In May, July and September of 2008, the Alexandria Fire District members provided fire and EMS coverage for the demolition derbies held at the Alexandria Fair Grounds.

911 Service - In October of 2008, Fire District members participated in the 911 Memorial Service held at the Northern Kentucky Firefighter memorial at the

Peace Bell in Newport. There was also a memorial dedication to former Chief Larry B. Atwell at the sight of the FF memorial.

State Fire Fighter Memorial Service – In October, Chief Pohlman and Board/Fire Commission Member Betty Rauch attended the Kentucky State Fire Fighter Memorial Service held at the FF memorial in Frankfort.

Funeral Detail – On April 9, eleven members participated in a funeral detail in Cincinnati for the two fallen Colerain Township Firefighters who lost their lives battling a structure fire.

EMS Details - During 2008, EMS members provided EMS coverage for the 5K Run at the city park, week-long coverage at the Alexandria Fair, the Northern Kentucky Band Festival at Campbell County Middle School, Demo Derby's, St. Mary's Festival, Campbell County High School varsity football games, and Bishop Brossart High School.

Turkey Raffle – On November 1st, the annual Turkey Raffle was held at the fire station with a great crowd on hand.

Santa on Fire truck – In December of 2008, thirty-eight members and board members participated in the annual "Santa on the Fire truck". Santa rode around town passing approximately 1000 candy canes to the boys and girls of the Fire District.

Needy Family - In December of 2008, members assisted Santa with giving gifts to a couple of five needy families. Donations from the various organizations of the Fire District and community organizations assist in making this a reality for these families.

Special Awards:

In October of 2008, Chief Engineer Dan Hildebrand received a "Firefighter of the Year" award from the Alexandria Lions.

Retirements:

In 2008, Engineer Jim Ciccera and Engineer Joe Lippert retired after many years with the Fire District. Both were volunteer members of the district.

Fire-EMS Response/6 Year

History

<u>Year</u>	<u>Fire Responses</u>	<u>EMS Responses</u>
2003	406	724
2004	317	713
2005	315	857
2006	298	816
2007	298	802
2008	376	887

Personnel:

The Fire District has 10 career staff and 43 volunteer Fire and EMS personnel. There three shifts of two personnel apiece working 24/48 hour shifts. One shift has three personnel. The Fire Chief and Captain work during the week as does the Administrative Assistant who is also crossed trained as an EMT. There is one Fire Chief, one Deputy Chief, one Assistant Chief, one Major Safety Officer, three Captains, one Chief Engineer, two Lieutenants, six Engineers, nineteen firefighters only, and nine EMT only personnel. Eleven are cross-trained as EMTs and there are four paramedics. There are four recruits and eight Explorers.

Advanced Life Support:

The Alexandria Fire District, along with Campbell County Fire District #1, Melbourne Fire District, Southgate Fire Department, Wilder Fire Department, and Taylor Mill Fire Department, contract with TransCare to provide Advanced Life Support. This is a tiered system utilizing a chase-car system with one paramedic/car at the Alexandria Fire Station (covers AFD, FD #1 and Melbourne

FD) and one paramedic/car at the Wilder Fire Station (covers SGFD, WFD and TMFD). Below is a chart of ALS dispatches for the Alexandria Fire District only.

EMS Observer Program:

In calendar year 2008, 3 EMS Observers participated in a “ride-along” programmed offered by the Fire District. These are usually citizens that may be interested in becoming an EMT with the department, are currently an EMT student enrolled in a local class, or already a current member of the Fire District. Kris Seitz, Chris Wuertz, Rickey Mays and Colton Sharp are currently members

of the Fire District who observe. Brittany Wagner and Kris Seitz are currently enrolled in an EMT class and are projected to finish in March of 2009. Danny Hildebrand, Michela Abeln, Frank Santee, Amy Gray, Sean Bartlett and Jeremy Nall are Fire District members who completed EMT training or were certified in 2008.

Training:

The Fire District is required by the Kentucky State Fire Commission to maintain 75% staffing of certified fire fighters.

The State Fire Commission requires volunteer members to be certified at Level 2 (150 hours) within 2 years of beginning the fire service career.

Volunteers are required to maintain a minimum of 36 hours of training annually as prescribed in the policy manual. The State Fire Commission requires career members to be certified at Level 3 (400 hours) within one year of beginning employment. Career members are required to maintain a minimum of 100 hours training annually.

Some of the in-house training Fire District personnel received in 2008 included Hazardous Materials Operations Class, Vehicle Extrication to include large vehicles and buses, Confined Space Training, Large Animal Rescue Class, pump operations, ladder training, hose lays, Incident Command Classes, Wildland Firefighting, and EMS classes.

Recruit members entering the department must successfully complete a recruit program consisting of over 120 hours of basic training. The training assists the member in the 150 hour State Fire Commission required training for volunteer status. Emergency Medical Technicians must successfully complete a training program that consists of over 125 hours of classroom instruction, at least four written and practical exams, and a written and practical exam for certification. Members who are presently certified as an EMT must maintain 26 hours of training every two years to maintain their certifications. EMT's in our Fire District are also combi-tube trained, epi-pen trained, CPR trained to include the AED. There is currently a combined class with Fire District #1 and the Fire District members attending are Kris Seitz and Brittany Wagner.

There are currently 21 Level 3 fire fighters (400 hours) and 10 Level 2 fire fighters (150 hours). There are 26 active EMT's and 4 active Paramedics. There are 6 members certified to teach CPR/AED training.

Life Safety Inspections:

There were 121 fire/life safety inspections plus re-inspections of businesses, daycares, and schools during 2008. The Kentucky Fire Marshall Office inspects schools, daycares, and businesses with State licenses with our department's assistance. Pre-plan information/building drawings is also attained

during these inspections and placed in the Firehouse database. The total number of certified Fire Inspectors for the Fire District is 13.

Where Do We Go From Here?

As the Fire District moves into 2009, there are many projects and goals yet to be accomplished. With the new Eastern Regional Wastewater Treatment Plant now in operation, the floodgates for construction in the Fire District have opened. Approximately 2,000 housing units have been approved. Commercial projects are operating include the Super Wal-Mart, Walgreen's, Arby's, Sonic and other commercial buildings planned for the spring of 2009 include United Dairy Farmers and Speedway Gas Station.

The Fire District continues their endeavors with the Northern Kentucky Technical Rescue Team. Members will continue to enhance their skills with large vehicle rescue, technical rescues and confined space.

The expected delivery of the new rescue truck is February 2009. The new truck will have new equipment to include a hydraulic tool system that will operate six hydraulic tools at one time, a compressed foam system, a camera attached to the light tower mast with recording capabilities in the command center, technical rescue equipment, cascade air system with a booster pump, to name a few of the tools and equipment.

The second major step the Fire District is undertaking is the taking over of Advanced Life Support from TransCare. The Fire District is taking the lead by hiring six paramedics, placing one chase car in Alexandria and one chase car in Wilder. These two units will cover Alexandria, Fire District #1 (Eastern Campbell, Camp Springs, Silver Grove), Melbourne Fire District, Southgate FD and Wilder FD. Early in 2009 a new life squad committee will be established.

The Fire District will continue take an active role in recruiting volunteer fire and EMS members along with recruiting Explorers.

I would like to take this opportunity to thank the Fire Board of Trustees for their continued support of the Fire/EMS members. Without such support, the much-needed equipment could not be purchased and programs would go unanswered.

I would like to thank all the members of the Fire District, both career and volunteer, fire and EMS, and Explorers. Without your dedication, pride, and hard work, fire and EMS responses would go unanswered, training would be nonexistent, and the many public relations activities would not be completed. I can have all of the greatest ideas in the world, but without your support, they would never become a reality. This place is not about you and me but the service that is provided to protect the citizens and visitors of the Fire District.

There are many goals to accomplish in the upcoming years in the Fire District. We are growing and will continue to grow. It is imperative that we are ready. Readiness includes taking training serious and being the best we can be. I am looking forward to the task and I hope I can count on the outstanding members of the Alexandria Fire District.

Sincerely,

Jeffrey H. Pohlman
Fire/EMS Chief
